Forecast for Monday 14 Jun 2021

Weather: Any remaining overnight rain soon clearing to the east early morning to leave brighter spells and only a few light showers, these mainly in the west of the area. More in the way of drier weather across the east, best of the sunshine northeast of Aviemore.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good with good air clarity. Becoming poor in areas of cloud down to 750 metres in showers, these chiefly across Monadhliath, Ben Alder and Creag Meagaidh.

Met Office Aberdeen Meteorologist's View
Much colder air will be in place on Monday with significant wind chill, especially under cloud cover. Summit westerly gales.

Forecast for Tuesday 15 Jun 2021
Weather: Most of the day will be dry with some hazy sunshine. Outbreaks of rain will extend from the west from late afternoon onwards. Windy with summit gales developing through the afternoon, significant wind chill.

Maximum wind: Southerly means of 30 mph with gust 50 mph, perhaps as high as 65 mph later in the day in lee-side corries.

Chance of cloud free mountain/hill tops above 800m: Very little in the way of hill fog until late afternoon, then some patchy low cloud developing thereafter especially in the west where it may become extensive.

Visibility: Generally good although some haziness possible in the air. Poor in patchy low cloud down to 700 metres later.

Temperature: **Glens:** Plus 4 rising to 16 Celsius
At 800m: Plus 6 Celsius
Freezing level: Above summits
